

Project Synopsis: Sales Dashboard (Excel)

- **Project Title:** Interactive Sales Performance Dashboard using MS Excel
- **Objective:** Sales data ko analyze karke region-wise, product-wise aur salesperson-wise performance track karna, taaki business decisions data ke basis pe liye ja sakein.
- **Data Used:** 4 regions (East, North, South, West), 6 products (Keyboard, Laptop, Monitor, Mouse, Printer, Webcam), 6 salespeople — Date, Units Sold, Unit Price, aur Total Sale columns ke saath.
- **Tools & Techniques:** MS Excel — PivotTables, PivotCharts, Slicers (interactive filters), Pie Charts, Bar Charts.
- **Key Features:**
 - Region-wise total sales breakdown (pie chart)
 - Product-wise sales comparison across regions (bar chart)
 - Unit-wise sales volume analysis
 - Salesperson performance ranking (pie chart)
 - Interactive slicers for real-time filtering

🔍 Key Findings:

- South region highest revenue contributor dikha
- Charlie aur Diana top-performing salespeople the
- Premium products (Printer, Webcam) kam units mein bhi zyada revenue generate karte hain

🔍 **Outcome/Value:** Dashboard se stakeholders bina raw data khangale, ek nazar mein sales trends aur top performers identify kar sakte hain — decision-making fast aur data-driven ban jaati hai.
